- Only athletes and officials are to enter the competition area.
- Athletes and officials should take care when crossing the track.
- No one is to cross the infield of the competition area.
- Warm-ups inside the competition area will be under the supervision of the officials following World Athletics rules.
- Warm-ups outside the competition area must be supervised by a coach or parent.
- Throwing implements should only be retrieved by officials or approved assistants.
- Spikes are only to be worn in the competition area. Please remove before leaving the competition area.
- No glass is permitted within the competition area.

Athletes must read and sign the safety notice at the time of entry.

4.0 SCHOOLS CUP POINT SCORING

Schools Cup points may only be scored by athletes competing within the Athletics New Zealand technical specifications for the grade in which they are competing. This restriction does not apply if an athlete throws a heavier weight than the grade requires.

4.1 Definitions

Recorded Performance - The best performance of recorded attempts, excluding did not start (DNS).

Scoring Performance - the best performance of recorded attempt after being adjusted if required as stated in rule 4.2.

Valid Performance - Any athlete who genuinely competes in an event, including disqualification (DQ), no measure (NM), or did not finish (DNF), is still deemed to have competed.

Club Score - Is the total number of points assigned to a club after any relevant adjustments have been applied.

4.2 Points Scoring

For each event and specification, the McKinnon Shield Scoring table will apply and (available on Results Hub) specifies performance values associated with point scores of 100, 200, 300, 400, 500 and 600.

Points are designed to be a balance between rewarding performance and participation. The points allocation provides an incentive to perform at an optimal level, while providing the school level athlete the opportunity to contribute to a school score in a “meaningful” way.

The performance values are known as key marker performances and key marker points which are detailed as follows:

100 points	awarded for a minimum standard performance (approximately at the 0.5 percentile point).
200 points	awarded for a performance at the 25-percentile point
300 points	awarded for a performance at the 50-percentile point
400 points	awarded for a performance at the 75-percentile point
500 points	awarded for a performance at approximately the 99.5 percentile point
600 points	awarded for a performance equal to the World Record

If a scoring performance lies between two key marker performances, then points awarded shall be a linear pro-rata assignment between the higher and lower key marker points.

There are separate scoring tables for male and female athletes and age adjustment factors such that an equivalent performance, irrespective of age or gender, is awarded the same number of points.

Results and associated point allocations have been statistically normalised across the different specifications of similar events

Points are calculated and awarded thus:

- An actual performance will be adjusted in the following situations and order: Classified para-athletes, school athlete by age in competition will have their performance adjusted as per the published adjustment tables.
- Any manual timed track event will have an adjustment factor added (0.14 seconds for events starting at the Finish line, and 0.24 seconds for all other events)
- The resultant adjustment by either or both above, will become the athlete's scoring performance.

Any performance not covered by the above, the actual performance is the scoring performance.

If a scoring performance equals any of the key marker performances, then the associated key marker points value is assigned as the points scored.

If a scoring performance is below the 100-point key marker performance, no points shall be awarded. All point scores are rounded down to the nearest whole number (i.e., no fractions), hence similar performances may be awarded the same points score.

If the performance of an athlete in a track event is not recorded by a designated official, and after due process the record of performance cannot be reconstructed, the athlete has the option of a re-run at a suitable time on the day of competition offered by the Competition Manager or accept a default score of 100pts. In all situations, the performance shall count for eligibility.

4.3 Similar Events and Scoring

Athletes competing might do so with differing specifications. For this purpose, if/when following events are held, they will be grouped for scoring:

- i Sprint Hurdles (includes 80m, 100m and 110m)
- ii Distance Hurdles (includes 200m, 300m and 400m)
- iii Steeplechase (includes 2000m and 3000m)
- iv Walks (includes 2000m and 3000m)
- v Distance Run events (3000m & 5000m)

4.4 Secondary Schools Challenge Cup

Points scored by all athletes from a school are totalled. Schools are then allocated points based on their ladder ranking as detailed in Section 4.7 below.

4.5 Secondary Schools Champions Cup

The total points scored by all athletes from a school is divided by the number of events competed in by athletes from that school. Schools are then allocated points based on their ladder ranking as detailed in Section 4.7 below.

4.6 Athlete Scoring Limits

Athletes will have their points score for each event, or similar event, ranked in order from best to lowest. The best three (3) individual event scores for each athlete from each individual club will be accrued for each MSS event.

4.7 Ladder Points

After each round of the Schools Cup, ladder points shall be awarded. Ladder points are only awarded to schools that score school points:

1st will be awarded points equal to the number of secondary schools in the Auckland Region (currently 106). Each position following 1st will be awarded 1 less point than the team above. (e.g. 3rd position will be awarded one less point than 2nd).

Example

- If there are 106 Schools – 1st = 106 points, 2nd = 105 points, 3rd = 1-4 points etc.

If schools finish on the same points at the conclusion of a round, ladder points will be combined and split evenly between the two schools.

5.0 RESULTS

5.1 Individual Results
